Comments
Yes, we had a safe place to answer questions and ask questions without feeling like we would be judged by the professor or our classmates.
I think we felt more welcome to speak on the subjects talked about in class. We still felt reserved when it came to certain subjects but we felt more welcome.
I did feel a sense of community.
I think with Professor Zuz I feel the most heard and understood, she has helped me a lot with my first semester in college.
Yes, our instructor encouraged group work and that in itself creates a sense of community between peers. She was also often and readily available which strengthened the connections with the entire class.
Yes, everyone in this class was able to share their thoughts openly without being judged.
I feel like because of the time the class was at the class felt kind of disjointed because everyone was not fully awake and ready to participate in discussion, so basically the same people always participated while others did not.
Yes, there were many opportunities where I got to work with peers.
Yes, I did. I did not talk much in this class, but I could tell that my peers were on the same wavelength and communicated with each other well.
